FLOOR DEBATE

April 30, 2003      LB 798

may get new information anyway and we're scrambling, I have some concerns on how this money is being transferred too, the portion for the smoking cessation program. I do fully support the veterans component. But rather than do something now that we then come back later on Select File and redo or look at differently, I would suggest that we advance it to Select File, and that gives us some time, rather than scrambling now, to try and come up with a solution that may not really be the solution and may end up causing another problem. So we've got plenty of time to do that. I don't think that we should rush into this. I would prefer that we craft something and do it once, do it right, and be sure it's what we want to do, rather than trying to hurry something now that doesn't necessarily accomplish all that we intend, and may have some unintended consequences. I think there's pretty much consensus on the veterans home portion of it. So that we would...a majority of us, at least, want to advance. The other section of it I think can easily be adjusted on Select File. And for those of us who don't support one component, we can certainly justify advancing the other, knowing that we will be looking at it. SENATOR SCHIMEK: Senator Wehr...

SENATOR PREISTER: Senator Wehrbein, does that make...

SENATOR SCHIMEK: Go ahead, Senator Preister.

SENATOR PREISTER: Senator Wehrbein, does that make sense to you?

SENATOR WEHRBEIN: Yes. That...yes, it does.

SENATOR PREISTER: Okay. And I would ask Senator Bromm, but currently Senator Bromm is in some negotiations. So Senator Bromm, I'd just suggest that...as you did, that perhaps in trying to craft something too quickly we may not have all the information we...a number of us, including myself, have some
